Creating a Town

We allow player-created towns to be added to the Hub. Anyone can create a town, but it must meet some requirements before it can be added to the hub. A town must:

- Follow all rules;
- Have a coherent name (15 chars max);
- Be in either Pyrrhia or Pantala;
- Be accessible without teleport;
- Have a city hall;
- Have a designated TP point (it may be in the city hall);
- Have a mailing center (it may be in the city hall);
- Have a sign board indicating the name, founder and (optional) other contributors (it may be in the city hall); and
- Have five residents

If it meets all these requirements, multiple staff members will visit your town and judge it based on the quality and effort. Higher-quality, more complete towns are more likely to be accepted. If it is accepted, the TP point and mail center will be activated and your town will be added to the Hub! If not accepted, don't worry — we'll give you some feedback, and you can apply the necessary changes and try again.
